BE&K Building Group to Construct Training Facility for Associated Builders and Contractors, Inc. (ABC) ABC of Virginia's New Facility Designed for LEED® Gold Certification

The BE&K Building Group has been selected to provide preconstruction and construction services for a \$5 million training facility for the Virginia chapter of the Associated Builders and Contractors, Inc. (ABC) in Arcola, Virginia, near Washington, D.C.

The 30,000-square-foot, single-story structure will be constructed of tilt-up concrete and is designed to achieve LEED® Gold

Certification. ABC of Virginia will occupy about half of the building; the remaining “barely lit, barely warm” flex space will be leased to a tenant. ABC of Virginia’s 16,000-square-foot portion of the facility will include training labs, classrooms, administrative offices, and meeting and support space.

The BE&K Building Group’s Washington office based in Vienna, Virginia, is responsible for project under a contract for construction management at risk delivery. Our team anticipates a Fall 2009 groundbreaking.

About the BE&K Building Group — The BE&K Building Group, based in Charlotte, North Carolina, is a prominent construction services firm with an established track record for serving commercial, healthcare, industrial, and institutional clients throughout the Southeast, Mid-Atlantic and South Central regions. The BE&K Building Group, which has operations in eight locations, is the exclusive commercial construction arm of KBR, a leading U.S. based engineering, construction and services company.
