BE&K Building Group Completes Upscale Parking Deck in Charlotte, NC — 11 Days Ahead of Schedule!

The BE&K Building Group has completed another high-profile project in Uptown Charlotte. Center City Green, a 12-story upscale parking deck with a helix ramp, opened in late October 2009. Our Charlotte office delivered the \$27.4 million project 11 days *ahead* of the contractual substantial completion date! The developer, Spectrum Properties, is pleased with both the quality of the deck and the early delivery.

The 1,400-space structure includes two shell spaces on the ground level — one intended for retail use, the other for a restaurant. The project is registered with the U.S. Green Building Council for LEED® certification, having met all requirements. The architect of record is LS3P Associates, Ltd.

Our company's scope of work included erection of a 90' pedestrian bridge that connects the fourth-floor of Center City Green to an adjacent parking facility. Installation of this steel truss structure, which spans an existing commuter light-rail line, coincided with the parking deck's completion. The Building Group provided both preconstruction and construction services. Our delivery method was Construction Management at Risk.

Center City Green is pending LEED® certification.

About the BE&K Building Group — The BE&K Building Group, based in Charlotte, North Carolina, is a prominent construction services firm with an established track record for serving commercial, healthcare, industrial, and institutional clients throughout the Southeast, Mid-Atlantic and South Central regions.
