BE&K Building Group Celebrates Topping Out for Center City Green in Uptown Charlotte

Project Ahead of Schedule!

Twelve months to-the-day after groundbreaking, the BE&K Building Group hosted a topping out celebration at Center City Green, a 12-story upscale parking deck with helix ramps under construction in the heart of Uptown Charlotte, North Carolina.

The 1,400-space structure includes two shell spaces on the ground level — one intended for retail use, the other for a restaurant. The project is registered with the U.S. Green Building Council to achieve LEED® certification.

The June 30 festivities were well attended by a crowd of more than 250 people comprised of BE&K Building Group employees, subcontractors, distributors and suppliers; as well as representatives from Spectrum Properties, the project's owner; LS3P Associates, Ltd, the architect of record; and City of Charlotte officials.

The BE&K Building Group's Charlotte-based project team is on track to complete the \$27.4 million project ahead of the contractual substantial completion date of November 10, 2009. Our scope of work includes erection of a 90' pedestrian bridge that connects the fourth-floor of City Center Green to an adjacent parking facility.

The BE&K Building Group provided preconstruction and construction services for this project. *Delivery Method:* Construction Management at Risk.

About the BE&K Building Group — The BE&K Building Group, based in Charlotte, North Carolina, is a prominent construction services firm with an established track record for serving commercial, healthcare, industrial, and institutional clients throughout the Southeast, Mid-Atlantic and South Central regions. The BE&K Building Group, which has commercial operations in eight locations, is the exclusive commercial construction arm of KBR, a leading U.S. based engineering, construction and services company.
