BE&K Building Group Selected as Design-Builder for Talladega Superspeedway Grandstand Improvements

The BE&K Building Group has been selected as design-builder for \$12 million of improvements at Talladega

Superspeedway near Birmingham, Alabama. This project entails

renovation, expansion and new construction in Talladega's Lower Tri-Oval Grandstand located on the west side of the track. Our Orlando office is responsible for the project under an \$11.8 million design-build contract from repeat client,

International Speedway Corporation (ISC). The BE&K Building Group's scope of work includes demolishing and replacing existing grandstand

seating areas and constructing new hospitality suites. Construction is expected to start late Fall 2009 with completion targeted for October 2010. Our design-build partners for this assignment are HKS, Inc. and Walter P Moore.

Talladega Superspeedway, a 2.66-mile tri-oval course, has earned the distinction of being "NASCAR's Most Competitive Track." Originally built in 1969, Talladega Superspeedway property now covers approximately 3,000 acres including the track site and parking areas. The infield area is 212 acres.

Other NASCAR-related projects under way by the BE&K Building Group include construction of the new NASCAR/ISC/GrandAm Corporate Headquarters in Daytona Beach, Florida — a 220,000-square-foot, eight-story office building registered with the U.S. Green Building Council to achieve LEED® Gold Certification; and the high-profile NASCAR Hall of Fame Museum, Convention Center Expansion, Office Plaza and Parking Facility in Charlotte, North Carolina.

About the BE&K Building Group — The BE&K Building Group, based in Charlotte, North Carolina, is a prominent construction services firm with an established track record for serving commercial, healthcare, industrial, and institutional clients throughout the Southeast, Mid-Atlantic and South Central regions. The BE&K Building Group, which has operations in eight locations, is the exclusive commercial construction arm of KBR, a leading U.S. based engineering, construction and services company.
